EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Lawrence Russ on June 23, 2006.

The application has been amended as follows:

Claim 37, at line 1, add "computer" between "A" and "readable".

Allowable Subject Matter

Art Unit: 2623

2. The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose nor reasonably suggest a first bitstream including a first data table with a first onscreen display message, a second bit stream with a second table with an index that refers to the location of the first onscreen display message within the first data table and includes a second on screen display message, which is an urgent message with a higher priority than the first message, and a device which displays the second on-screen display message before the first onscreen display message as claimed by applicant. In particular, display of the second message before the first message does not allow for display of the first onscreen display message to be interrupted in order to display the second urgent on screen display message. Rather, the claims require that the second message be displayed **before** the first message.

Claims 13-47 are allowed

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
